** NOTE: The above table displays all fires and acres reported by the local Dispatch Center via the National SIT REPORT Program. All fires are new fires, however, the acreage reported can be an accumulation of all acres from new fires plus all acres from ongoing ICS-209 fires reported via the ICS-209 System. (i.e. Do not think of fires and acres as synonymous, they can be different. For example, at times there can be 0 new fires and 1+ acres.)
